Time Sweep is a utility developed by Microsoft that records and displays time spent on various activities while working on a computer. Each time an action takes place is recorded with the time stamp of the clock, and time is included as well. The utility can display time stamps in a specified clock format or a

What's New In Autorun Registry Keys Cleaner?

When an executable file is launched from a removable media (CD, DVD or USB), the program accessing the associated registry key is stored in the file path. Unfortunately, that association is stored in a subkey, which is not properly read by the file or registry viewer. This problem can be solved by deleting this subkey or by deleting the file. Autorun Registry Keys Cleaner assigns it to a permanent subkey, restoring the original associations. Not like other utility of this type, Autorun Registry Keys Cleaner is freeware. Autorun Registry Keys Cleaner works even in cases of protection. This version does not require internet connection and works in offline mode. Autorun Registry Keys Cleaner Related Software Reader Feedback No reader feedback for now. Why not share your opinion?
